french, english

HOBBIES
Typescript, EVM,
DeFi (gnosis safe +
cowswap heavy user),
philosophy (forever
noob), english boxing,
countryside I grew up in

VISION
d/acc

ASSOCIATIVE
Ethereum France
Scoutism for 10+ years

CV summary
5 years fullstack engineer with 3+ years in institutional crypto

Full-time experiences
fberger.xyz/xp

2025 - now   FREELANCE, Paris, France — **Senior Fullstack Typescript Engineer**
- Go-getter for clients like COINSHARES + other Web2 clients
- Using best-in-class Typescript tooling (next, tailwind, tanstack, zustand and more)

2021 - 2024
3+ years   COINSHARES, Paris, France — **Senior Fullstack Engineer | Risk management + DeFi**
- Designed, coded and maintained dashboards used 24/7 by teams and top execs to monitor all **hedge funds** operations, **lending** operations, **staking** operations and **trading** operations
- Proactively improved technical debt with best-in-class **next/react/typescript** dev tools
- Research analyst for top management (on Eth 2.0 specs and several DeFi protocols)
- Ran ethereum nodes in AWS to test the Shanghai upgrade and explore MEV opportunities
- Set up github/gitlab CI/CD pipelines to run bots in AWS (e.g. monitoring SEC website for alerts)
- Coded from scratch + deployed an audited **DeFi dApp for tokenizing on-chain fund liabilities**
- Contributed to MIP86 "CoinShares USDC Institutional Rewards"
- Shared my knowledge of Ethereum
References available. Left to explore EVM use cases (tokenization, lending, stablecoins)

2021
9 months   STATION F STAFF, Paris, France — **Fullstack Typescript Engineer**
Shipped multiple new features for the Station F community, eg. *launch.stationf.co.* 2 tech stacks:
- Nest (for our backend), postgresql, Nuxt (Vue), Tailwind – tested with Jest
- MongoDB, Express, Vue 2, Node - tested with Mocha, Chai and Sinon
In direct contact with the lead dev and CTO, I learned:
- best practices to commit a clean and tested code (unit, integration, e2e)
- how to really use Docker (Compose), Algolia, Stripe, AWS, Sentry or Gitlab
References available - Left to explore Ethereum

2020
4 months   FREELANCE, Paris, France — **Fullstack Javascript Engineer**
Extensive web scraping and research for Outmatch, a small M&A firm in Paris

2019
6 months   GRANT THORNTON, Neuilly-Sur-Seine, France — **Transaction Services Analyst, M&A**
Worked on mandates in M&A and fundraising. Declined a full-time offer

2018
7 months   ORDEA.CO, Paris, France — **Fullstack Ruby On Rails and Javascript Engineer**
Continued my end-of-course project at Le Wagon bootcamp. Designed, coded and maintained an order management SaaS still used by a small network of parisian artisans. Gained initial traction

2017
10 months   DBA CONSULTING, Paris , France — **Transaction Services Analyst, M&A**
Worked on mandates in M&A, fundraising, and litigation. Letter of reference available

Education

2018 - 2020   ÉCOLE 42, Paris, France — **Software Engineering diploma** *1st student to pass final core exam*

Oct. 2019   ACADEMY OF PARIS, France — « **DSCG** » *French CPA entrance exam*

2014 - 2019   UNIVERSITY OF PARIS, France — **MSc. Accounting and Corporate Finance**

Q4 2017   LE WAGON, Paris, France — **Fullstack Developer bootcamp** *batch #101*
